Professional Experience:

Software Developer – TechGroupAmerica Inc. **September 2018 – current**

Project/Client: **S&P Market Intelligence**, New York, NY **September 2018 - August 2020**

Description: Worked on multiple UX design and development for S&P projects - providing clients with web and mobile applications to visualize financial data including market intelligence data, ratings. Created and administered single page financial applications.

Responsibilities:

- Worked on S&P CIQ Web Applications project to provide clients with reports and market intelligence data
- Interacted with the UX team through design development and participated with the group to formulate grids using toolkits like **Sketch** and **Figma** and worked through with the team on recommendations. Heuristic evaluation was used in the process along with other techniques.
- Redesigned user interface **HTML frameworks** with **Bootstrap** and **CSS** styling; Refactored CSS to make changes as per UX recommendations.
- Designed and Developed Web application using **CSS** preprocessors (**SASS**);
- Heavily focused on utilizing JavaScript, jQuery, Bootstrap, HTML, CSS and various JavaScript libraries including AngularJS;
- Working as an agile team member, proficient in Agile Scrum framework;
- Utilized MySQL as the Database Management system;

Environment: React.js, HTML/HTML5, CSS, SASS, JavaScript, XHTML, Bootstrap, AJAX, JSON, Java

VP Business Relationship Manager III – JP Morgan Chase Bank April 2016 – August 2018

Description: Managed a portfolio of business clients for their lending and banking needs. Maintained pro-active interaction, prompt service delivery, effective listening and active communication with clients creating healthy understanding of their businesses and strong partnerships. This resulted in strong client retention and satisfaction rates as well as excellent lending and profit growth for my portfolio.

Responsibilities:

- Support the Development group with new UI features and enhancements to trading and reporting applications
- Participative solutions for specialist banking needs in conjunction with FX, Trade Finance, Cash Management and branch specialists
- Primary point of contact for all client needs
- Underwriting for new Business loans and lines of credit, annual review for existing loans and lines of credit
- Achievement of sales goals
- Passionate about business process improvement in solutions such as CRM, Financial Analysis & Data integration

Achievements:

- I was at 120% of lending target as of December 2014 – my first 6 months in the portfolio
- I was at 135% of target for fee income as of December 2016 – my first 6 months in the portfolio
- I closed the largest commercial mortgage within my team in 2015

VP, Senior Business Relationship Manager – HSBC, USA April 2012 – December 2015

Description: Managed a portfolio of **internationally focused businesses** (with revenues of around \$100 million) for their lending and banking needs. Maintained pro-active and effective interaction with clients to understand the financial needs and operations of their businesses and ensure a strong partnership. Developed strong client relationships resulting in high client retention and satisfaction as well as strong portfolio growth.

Responsibilities:

- Primary point of contact for all client needs
- Participative solutions for specialist banking needs in conjunction with FX, Trade Finance, Cash Management and branch specialists

- Underwriting for new Business loans and lines of credit
- Annual review and renewals for loans and lines of credit
